June 1, 2016

Dear Keone'ula Faculty, Staff and Parents/Guardians,

In 1989, Congress passed the Asbestos Emergency Response Act (AHERA). Under this Act, the Environmental Protection Agency (EPA) requires our school to notify parents, teachers, and employees of the presence and status of asbestos containing material in our school buildings. The law further requires a management plan be maintained upon findings of an initial inspection.

Keone'ula Elementary School was constructed in 2007. Building specifications mandate that after 1989, no Asbestos Containing Building Material (ACBM) is to be used in the construction of schools. Therefore, Keone'ula is ACBM free. A copy of the management plan is on file in the administration office and is available for review during regular school hours.

Should you have any questions, please call me at 307-2100.

Sincerely,

Suzanne Niitani
Vice Principal
